Usagi

I'm sorry, this is all my fault. It's my fault that Chibiusa followed me here in the first place.

Well, the game has a very strong protection system on it, so I don't think so

Has she discovered the location of our control room?

Anyway, as for the whereabouts of our two missing girls...

Shouldn't you be at least a little grateful for that, and be happy?

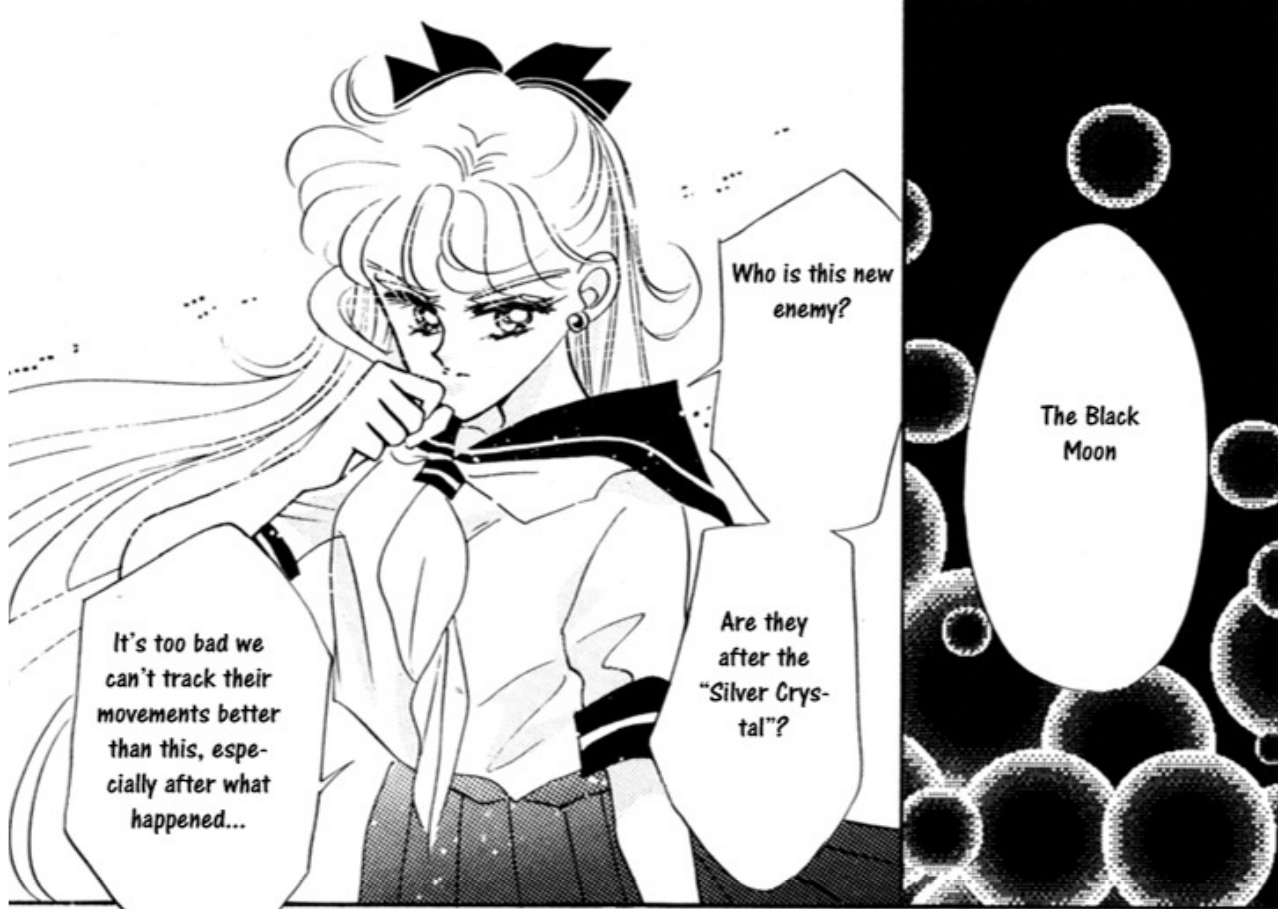

Chibiusa cheered you up a lot, Usagi

I can't communicate with their devices at all. No response. It's possible that they are in a remote location where our signals can't reach them...

Who is this new enemy?

The Black Moon

Are they after the "Silver Crystal"?

It's too bad we can't track their movements better than this, especially after what happened...

I knew I'd find that brat "Rabbit" here, and look, didn't I call it?

Berthier from the Black Moon mentioned "Rabbit"...maybe

That brat, "Rabbit"

There is one thing that our enemies have made clear.

Maybe she was talking about Chibiusa, don't you think?

She looks just like Usagi

She just fell from the sky all of a sudden

Most of these were discovered in an empty lot in Minato Ward. Eyewitnesses say that they saw a flash of light as the ground was flattened.

And it is thought that a supernatural force must be doing these acts from high in the sky!

Our hottest discussion topic, crop circles. More have been sighted throughout the city.

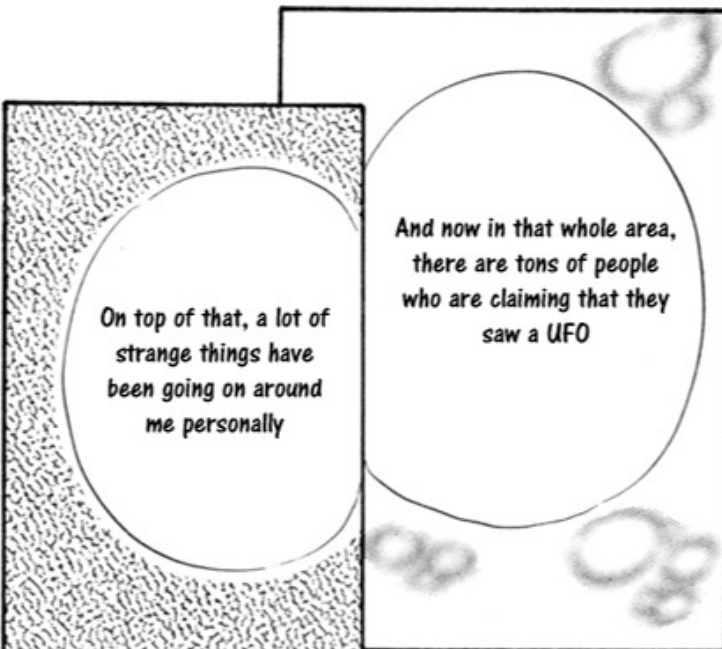

Indeed they have

cough

There's been more and more reports like this on the news lately

There have also been rumors of the spot being a UFO landing strip

On top of that, a lot of strange things have been going on around me personally

And now in that whole area, there are tons of people who are claiming that they saw a UFO

Did you know that crop circles were also discovered near here at Arisugawa Park? There were a ton of witnesses who saw the crop circles being created.

And it said Ami and Rei were taken away somewhere, what the heck was that about?

I heard a talking cat

I heard something really weird

aren't really human, are you?!

You guys

And then you tell me that you are more electrically charged than most people?! What was that power that Mamoru said he had, what was that about?

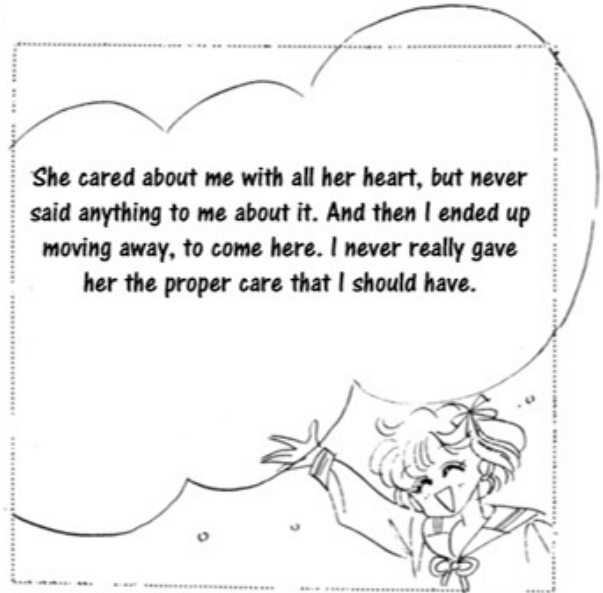

You are just like a friend I had a really long time ago, frank and honest

And I didn't understand how important friendship really was

I didn't really know what direction I wanted to take my life in

She cared about me with all her heart, but never said anything to me about it. And then I ended up moving away, to come here. I never really gave her the proper care that I should have.

On top of being able to emit an aura power from his fingertips, he can also use his powers to heal someone or give them a shock

Mamoru's power is called "psychometry"

It gives him the ability to sense things through touch

It is our destiny and cause to fight our enemies

Of course, regular humans don't have the powers we have, but we are still human

But the fact that I was able to meet them after searching for them for such a long time, and the fact that we became friends, and understanding our cause... I'm going to fight for them, and for our cause

But right now our job is to save those two at any cost, though I don't know how we'll do it

And Ami and Rei, they share our destiny and must fight as well

And no matter what kind of fight we have to put up with, I won't be scared

I think of my friends as the most precious and important part of my life
